MOUNTAIN HOME, Ark. – Arp Foot and Ankle Clinic staff members Misty Davis, A.S.P.M.A, Kim Benton, Office Manager, and Medical Scribe, Gina Estes attended the Midwest Podiatry Conference recently in Chicago, Illinois. The conference theme for 2016 “Adapt. Evolve. Change.”, featured leading speakers from the United States and Canada. The Midwest conference is one of the largest podiatric conferences of the year and is coordinated by 14 different state podiatric medical associations.

Highlights of the Assistant’s portion of conference, coordinated by the American Society of Podiatric Medical Assistants, included topics related to the transition in medical coding to ICD-10 and changes to PQRS or Meaningful Use. The program hosted two tracks for both clinical and administrative assistants.

“The importance of current training for our staff is of utmost importance”, said Dr. Eric Arp, a Baxter Regional Medical Center Foot and Ankle Surgeon. “The staff is able to network with other podiatric assistants from various states and bring back some of the newest information and trends in patient care”.
